

THE EVOLUTION **CONTINUES**

Future-proof your office with smart and innovative technology at maximum productivity with up to 70 pages per minute.

Canon imageRUNNER ADVANCE DX C5800i Series

Colour Multifunction Device

With up to 70 pages per minute, save time and resources even further

- Intuitive user-friendly interface with a large 10.1 inch WSVGA touchscreen and smartphone similarities.
- Advanced scanning technology can dramatically reduce time spent naming and saving scanned files to your cloud storage service*.
- Single-pass document feeder and automatic blank page removal for streamlined digital workflows.
- Hot Folders allow users to drag and drop a file into a hot folder and automatically print with pre-defined settings such as number of copies and finishing requirements.
- Scan and convert documents to searchable digital files in a variety of file formats.

MOBILITY

An increasing mobile workforce requires an innovative way of working

- Simple and easy mobile connectivity with in-built Wi-Fi
- Flexible mobile workflows enable users to intuitively print, scan and capture directly on their mobile with Canon PRINT Business.
- Support for Apple AirPrint® and Mopria™.

Achieve environmental goals by incorporating responsible design and efficient operations

- Motion Sensor and Sleep Recovery Triggers reduce energy consumption.
- Minimise waste with default print settings including 2-sided, and black and white options.
- A combination of fusing technologies and new low-melting-point toner minimises power requirements and helps achieve low energy consumption.

INTEGRATION

Seamlessly integrate into new and existing systems

- Leverage Canon's MEAP platform to optimise processes integrating with a range of powerful document, capture and output management solutions.
- Access and store your cloud documents at any time using uniFLOW Online.
- Supports integration with popular cloud services like Google Drive and Box*.
- Dual Hard Wired Network ability with optional Ethernet Adapter.

Safeguard data and ensure sensitive information remains secure

- The device boot process, firmware, and applications are verified upon start up. In conjunction with McAfee Embedded Control™ which utilises a whitelist to protect against malware, the device is protected from tampering or alterations of firmware and applications.
- Security Information and Event Management (SIEM) system integration helps provide real-time insights into potential threats to the network and printers.
- Ensure data is secure with encrypted SSD storage.

COST CONTROL

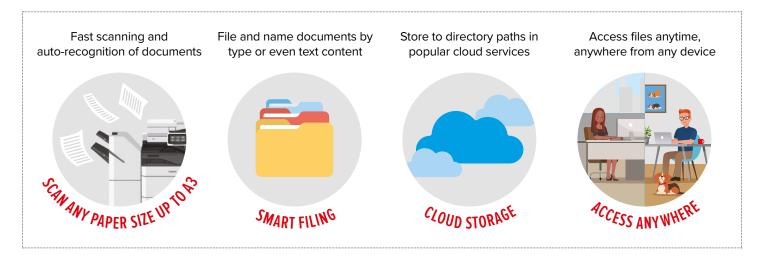

Manage costs with ease thanks to improved efficiencies

- Reduce wastage with Forced Job Hold at the device allowing users to preview, change print settings and sample print before releasing the full job.
- Manage print by applying print policies and monitoring output.
- Control print costs by restricting access not only to the device but to functions by user such as colour and 1-sided printing.
- Reduce downtime and use of IT resources with remote support and fleet management.

ADVANCED SCANNING

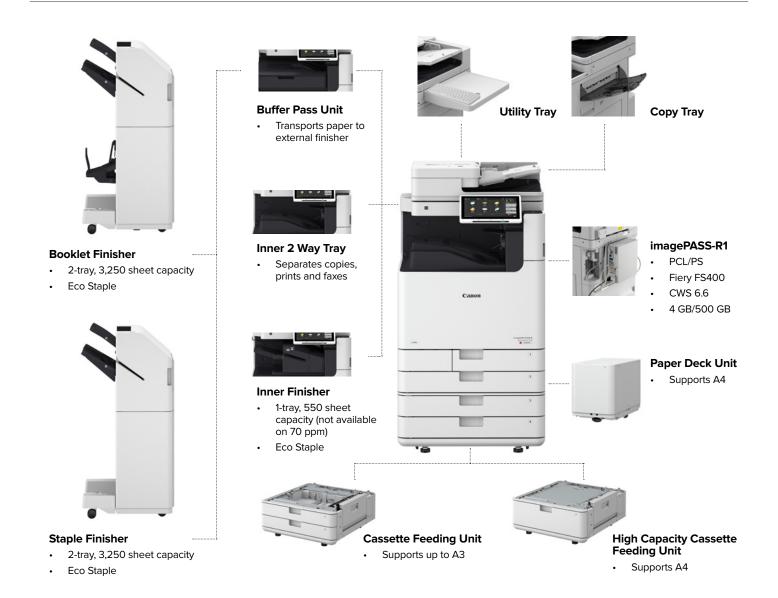

uniFLOW Online's Filing Assist* saves you time, reduces keying errors and brings consistency to your filing so you can find what you need, when you need it, anywhere you have internet access; at home, work or on the go.

Filing Assist uses pre-configured workflows that scan batches of repetitive documents including invoices, delivery notes, picking lists and orders to popular cloud services. Not only are they scanned, they are named, converted and filed – based on rules and information from the document.

 $^{^{*}}$ Filing Assist is available with uniFLOW Online 2020.2 and requires a Cloud Image Processing subscription.
