INTUITIVE TOUCHSCREEN

Enjoy quick, easy access to the LBP664Cx's features, with the elegant 12.7 cm (5") touchscreen. The keyless display allows users to navigate through the on-board functions with a simple tap, helping to save time and improve efficiency. The clear layout and intuitive design gives users fast access to functions they frequently require with minimal training.

FASTER PRINT SPEEDS

For small businesses, being as productive as possible is critical. That's why Canon has overhauled the engine inside the LBP664Cx, to deliver print speeds of up to 27 pages per minute*. This rapid performance increases user efficiency without compromising on quality, producing a reliable, impressive output every time.

INNOVATIVE APPLICATIONS

The LBP664Cx offers time-saving applications, designed to make printing easier and improve user efficiency. The in-built application library allows forms, templates and other documents to be printed from a single press, without requiring any device to be connected. In addition, a personalised screen saver can be created, displaying important messages to users while in standby mode.

COLOUR ENGINEERED TO IMPRESS

Canon's all-new laser technology enhances prints, with captivating hues that grab attention. Despite the rapid print speeds, the LBP664Cx doesn't compromise when it comes to quality, with arresting and vibrant colours that add impact to any document. So, whether it's for sales, marketing, or just internal purposes, the Canon LBP664Cx printers supercharge your communications.

MOBILISING SMALL BUSINESSES

Designed to meet the demands of today's small businesses, the LBP664Cx features AirPrint® (Apple) and Mopria® (Android) support, allowing users to harness the full potential of their mobile devices. There's Near Field Communication (NFC) and QR code pairing too on the LBP664Cx, enabling fast, convenient access to the printer. Wireless Direct connectivity allows guests to print without the need for secure network credentials. The Canon PRINT Business mobile app also serves up a range of helpful tools, to further improve mobile working.

LESS UPKEEP, MORE UPTIME

Keeping maintenance to a minimum, the LBP664Cx features an auto toner seal removal system, making consumables easier to replace. In addition, the all-in-one (and optional high yield) cartridges keep the printer running for longer, while built-in consumable monitoring helps small businesses more efficiently plan their supplies purchasing.
